Data Structures and Algorithms

Object Oriented Programming

Certification

- Python Data Structures

About Me

Full-Stack Developer | Building High-Performance Web Apps with Node.js, NestJS, Angular & RDBMS

Profile Summary

Full-Stack Developer with 1.2 years of experience building high-performance web applications and secure APIs. Increased website loading speed by 20% through front-end optimization (Angular). Adept in both front-end and back-end technologies (Node.js, NestJS) for seamless integration and user experience. Proven ability to collaborate effectively and deliver impactful solutions.

Education

2022, Full Time

B.Tech/B.E., Computers

University of Pune, Pune , 8.5/10

2018

12th, Maharashtra, English, 50-54.9%

2016

10th, Maharashtra, Other, 75-79.9%

Work Experience

2022 - 2023

Software Developer

Compumatrice Multimedia Pvt Ltd

Key Result Area

- Contributed to the delivery of over 10 web application components, microservices, and POCs using Angular, NestJS, Node.js, and Java, ensuring seamless integration and comprehensive documentation.
- Collaborated with cross-functional teams in the design, development, and maintenance of these applications, resulting in a measurable 5-8% performance enhancement, reduced server load, and improved user experience.

- **SQL for Data Science**
- **HTML, CSS, and Javascript for Web Developers**
- **Java Full Stack Development**
- **Generative AI**
- **Accenture Nordic Developer Program and Virtual Coding Experience**
- **Core Java and Advance Java Technologies**

Personal Information

Date of Birth	14th May 2000
Gender	Male
Address	Thergaon , Wakad , Pune
City	Pune
Country	INDIA
Marital Status	Single / Unmarried

- Played a key role in streamlining technology systems by consolidating legacy platforms, leading to a significant 15% reduction in operational costs and improved scalability.
- Successfully participated in executing a POC integrating Twilio, NestJS, Angular, and Dialogflow, with the potential for annual cost savings ranging from 5-20%.
- Contributed to optimizing testing processes, resulting in a notable 25-30% reduction in testing time and enhanced overall system performance.

Projects

335 Days

Scalable Web Application for Remote Patient Monitoring and Engagement in Healthcare:

Patient Monitoring and Engagement in Healthcare.

334 Days

Communication Application

Provide a better way for communicate between Patients and Providers.
